Public Safety Service

PAUL E. SMITH
STATE FIRE MARSHAL

October 24, 2007

To: Parish Presidents, Mayors, and Building Code Enforcement Departments

From: Boyd Petty, DSFM Manager
Licensing Section, Office of the State Fire Marshal

RE: Licensing Requirements
Licensing Section Memo 4-2007

In December of 2005, this office sent out notice of licensing requirements enforced by the fire marshal at that time. These requirements consisted of three separate licensing laws. In January of 2007, these three laws were consolidated into one body by Act 307 of the 2006 Regular Session of the State Legislature. To that end, this memo is designed to inform you of the general licensing requirements for the fire sprinkler, fire protection, security, closed circuit television and locking system industries regulated by this office through R.S. 40 1664 et seq.

The following industries are currently required to be licensed:

A. Fire Sprinkler Industry

1. Law regulates commercial fire sprinkler systems/ equipment, fire pumps, standpipe systems and hose stations.
2. Requires the firm to be licensed as well as all sprinkler designers and inspectors.
3. Firm must possess a minimum of \$500,000 general liability coverage and workman's compensation insurance.
4. Vehicles must be marked with firm name and license number.
5. Individuals must have their pocket license on their person while working.
6. Systems/equipment required to be tagged indicating work performed.

B. Fire Protection Industry

1. Law regulates commercial fire suppression systems/equipment, commercial fire alarm and detection systems/equipment, fire hoses and portable fire extinguishers.
2. Requires the firm, technicians and trainees to be licensed.
3. Firm must possess a minimum of \$500,000 general liability coverage and workman's compensation insurance.
4. Vehicles must be marked with firm name and license number.
5. Individuals must have their pocket license on their person while working.
6. Systems/equipment required to be tagged indicating work performed.

(225) 925-4911 1-800-256-5452

C. Security, Closed Circuit Television and Locksmith Industry

1. Law regulates commercial and residential security systems/equipment, electronic and mechanical locking systems/equipment, closed circuit television systems/equipment, and residential fire alarm and detection systems/equipment.
2. Requires the firm, technicians, installers, sales persons, and trainees to be licensed.
3. Firm must possess general liability and workman's compensation insurance.
4. Firm must have a physical location in Louisiana.
5. Individuals and owners must pass a criminal background check.
6. Individuals must have their pocket license on their person while working.

All fire marshal licensing requirements can be found on the fire marshal website located at www.dps.state.la.us/sfm under the Licensing Section. Additionally, please consult with the Louisiana State Board for Contractors for that entity's licensing requirements.

If you should find a firm or individual in violation of the law, please submit a complaint form to my office. The complaint form can be found on the website. The fire marshal actively enforces these licensing laws and pursues administrative penalties against all firms or individuals found in violation. With your assistance, we can ensure a safer Louisiana. Thank you for your attention to this matter. Should you have any questions concerning this matter, please contact me at 800-256-5452 or locally, (225) 925-7047.
